October 2026 Outreach Report

Subcommittee Meeting: Did not meet in September

Outreach Report: October 2026

September Recap

Coordination & Communication

WhatsApp Status: The group remains our main hub for linking up. We are seeing more messages come through and people attending meetings that need support GSRs: Please keep shouting out the Outreach Team at your home groups! We want people to know that outreach isn't an intense job. It is literally just about showing up so no meeting feels like it's on an island.

Personal Update: I have been a bit less active recently as our puppy is currently going through physical therapy. However, I am actively planning to get the group chat rallied and coordinate a group outing to a meeting together soon!

The Vibe: We are keeping the energy low pressure and organic. It's all about making sure every meeting feels supported.

NEXT AREA MEETING:
November 1, 2026 @ 12pm HYBRID

September Movement & Milestones We saw some great movement this past month and got out to several meetings. It was amazing to show up in force, and we want to carry that exact energy into next month.

Our Goals for October

Keep the Momentum Going: After a great September, the primary goal for October is to keep the ball rolling. We want to take the energy from the meetings we visited and channel it into supporting even more NA meeting groups across the area.

Group Outing: Rally the group chat and coordinate a solid turnout of members to visit a meeting together this coming month.

Better Notice: I am committing to giving everyone at least a 48 hour heads up in the chat before we head to a meeting. This makes it much easier for people to coordinate carpools and show up together.

Solid Energy: The goal remains to get at least five experienced members to show up at struggling meetings to help keep the atmosphere of recovery strong.

New Faces: We would love to see some fresh faces from home groups that haven't joined us yet. Let's make sure the Outreach Team represents the whole area, not just the same few groups.

- Email from Chris 10/04/26

Hi all! Our newly elected Regional Delegate, Mike H., asked me to share the attached flyer about the proposed changes to IP #1. This is directly related to the gender-neutral language we've been discussing.

Individuals, groups, and areas are all encouraged to participate in the online survey:
https://www.surveymonkey.com/r/revisingIP1

NEXT AREA MEETING:
November 1, 2026 @ 12pm HYBRID

I believe the survey is open through the end of October. Please take a few minutes to share your input. This is our fellowship, and our voices matter. The more of us who participate, the better we can shape NA together!

The old BMLT App is being replaced with the NA Meeting Near Me app. Explanation below:

Nothing about your BMLT server is changing. The only change is that a new iPhone and Android app called NA Meetings Near Me is replacing the older BMLT Search app. Your BMLT server, meeting database, and the way your region or zone maintains its meeting information are all staying the same.
The BMLT (Basic Meeting List Toolbox) is a network of servers that host databases of NA meeting information. These servers are primarily owned and maintained by regions and zonal forums. Nothing is changing with those BMLT servers.

The change is to a mobile app used to access that information. A new iPhone and Android app called NA Meetings Near Me is replacing an older app called BMLT Search. The maintainer of BMLT Search is no longer able to devote the time and resources necessary to maintain it, so the new app will take its place.

NEXT AREA MEETING:
November 1, 2026 @ 12pm HYBRID

Both apps use BMLT servers as their data sources for meeting information. The new app is simply another way for members to access the information already being provided by your BMLT server.

So, to reiterate: nothing about your BMLT server is changing. There is no change to your server or how your region or zone maintains its meeting information. The only change is that a new iPhone and Android app is replacing the older BMLT Search app.
